

Automatic Detection of Pseudo-Tested Methods in a Test Suite Using Fault Injection

Nicholas Tocci

November 12, 2018

Problem

Introduction

Problem

Current Metrics

How can we know if our test suites
are adequate?

Solution

Introduction

Problem

Current Metrics

Passing Test
Cases

High Coverage

Test Suite
Proofs

- 1 Automatic changes to code
- 2 Use of different styleguides
- 3 Easy configuration

Issues found in research

Introduction

Problem

Current Metrics

Passing Test
Cases

High Coverage

Test Suite
Proofs

- Not as easy to configure as I would like
- Have to do human testing
- Much of the work is going to be converting rules to code
